This screenshot shows a data management interface for 'Exhibits and Performances'. The interface includes a top navigation bar with 'Activities' and 'CV Imports'. A central section features a table with columns for 'Work', 'Explanation', 'Menu', 'City', 'State', and 'Year'. The table is currently empty. To the right, there are filter options for 'Type of Work' and 'Explanation of "Other"', both of which are checked. Below the table, there are sections for 'Orbit Description' and 'Music Performances'. The interface also includes a search bar, a 'Filters: None' indicator, and a 'Use Select Co' button.
